

Technip awarded a services contract for refinery units in Bulgaria

March 2, 2009

Paris, March 2, 2009

Technip has been awarded by Lukoil Neftochim Burgas a lumpsum contract, worth approximately €10 million, for the front-end engineering design (FEED) of new units to be built at their refinery in Burgas, Bulgaria.

The contract covers:

- four units based on Axens technology:
 - a residue hydrocracking unit with a capacity of 2.5 million tons per year,
 - a vacuum gasoil hydrocracking unit with a capacity of 1.8 million tons per year,
 - an amine unit,
 - a sour water stripper unit,
- two hydrogen () -8 (s)r (y) -10 (d) 31 253n9 8 Tf 1 0 0i9dery8 mt(8) -8 (r) -8 () -9 (oh25o.94922 57.8984)
